REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-36 are allowed because, the prior art of record specifically Chao (6,134,297) fails to specifically teach a x-ray scatter compensator which is configured for *iteratively* generating a refined value of a *normalized estimated* X-ray scatter signal corresponding to an uncorrected radiograph and subtracting the refined value from the *normalized* total x-ray signal of claims 1, 16, 25, 27 and 28 and Kikuchi (US 4,823,370) does not teach said compensator being configured for *iteratively* generating a plurality of *refined* values, each value corresponding to a profile of a corresponding one of the uncorrected radiographs and subtracting each of the *refined values* from a *normalized* total x-ray signal corresponding to said profile of claim 3 combined with other features and elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other prior art cited

2. Prior art of record cited and not relied upon is considered pertinent to applicant's disclosure.

The US Patent 6,052,433; US Patent 6,018,565; US Patent 5,666,391 and US Patent 4,918,713 variously teach x-ray scatter elimination related to applicant's invention as claimed.
